Education

Vellore Institute of Technology, Bhopal
B.Tech. in Computer Science Engineering

Sept 2022 – Current
CGPA: 8.15

Maheshwari Public School
12th Grade

May 2022
Percentage: 85%

Skills

Languages & Frameworks: Java, Python, C, JavaScript, TypeScript, HTML, CSS

Tools & Technologies: Git, GitHub, VS Code, IntelliJ IDEA, PyCharm, Kubernetes, Docker, Gradle, Linux, Maven, Spring Boot, REST APIs, Nginx, JUnit, PostgreSQL, Amazon Web Services (AWS), AWS Lightsail, Google Cloud Platform (GCP)

Soft Skills: Cross-functional Collaboration, Team Leadership, Agile Mindset, Operational Excellence

Projects

PeerLink (Java, Maven, AWS Lightsail, Docker, Nginx, Shell, JUnit)

Live Demo

- Developed RESTful backend API using Java with custom HTTP server implementation and Maven dependency management for scalable web application architecture.
- Implemented containerization using Docker and Docker Compose with Nginx reverse proxy configuration for optimized performance and load balancing.
- Deployed live application on AWS Lightsail with custom domain and automated shell scripting, implementing JUnit testing framework with 90% test coverage to ensure robust application reliability.

CrossWise (TypeScript, JavaScript, Python, Generative AI APIs, AWS, REST APIs)

Github

- Team project for Amazon Sambhav Hackathon 2024, achieving Finalist position (Top 12 out of 100,000+ teams).
- Led development of GenAI chatbot using Python and AWS services to automate responses to export-related inquiries, including regulations and documentation, reducing manual processing time by 35%.
- Reduced customer service dependency by 30% through GenAI chatbot implementation that addressed export regulation FAQs with 95% accuracy, significantly improving operational efficiency.
- Implemented DAP/DDP pricing models for transparent international shipment costing, reducing shipping cost inquiries by 30% and improving customer satisfaction.

TrainEase - Railway Booking System (Java, Gradle, Swing, JSON, BCrypt, JavaTimeModule)

Github

- Developed Java-based train booking application with JSON Jackson storage and MVC design pattern, enabling filtering, cancellation, and history features, achieving 99.9% application uptime.
- Engineered Java Swing train booking application featuring real-time seat selection and secure login via BCrypt, processing 50+ bookings daily with zero security breaches, enhancing user trust and data protection.
- Enhanced user experience and application stability using JavaTimeModule, structured logging, and modular Object-Oriented Programming principles for maintainable codebase.

Professional Experience

Software Development Intern - MSVO Venture Pvt. Ltd. | *Agritech Startup*

- Engineered automated risk detection module leveraging Java and Spring Boot, reducing false positives by 15% and amplifying detection accuracy, resulting in savings of 10 weekly manual hours and improved system reliability.
- Optimized key APIs through strategic PostgreSQL query indexing and database restructuring, achieving 33% reduction in average response time from 2.1 to 1.4 seconds by identifying and resolving 3 critical performance bottlenecks.

Achievements and Certifications

- **Finalist in Amazon Sambhav Hackathon 2024** — Finalist in Amazon Sambhav Hackathon 2024 for CrossWise Export Management System project, demonstrating exceptional problem-solving and technical innovation skills.
- **AWS Solutions Architect - Associate Certification** — Validated expertise in designing secure, scalable, and cost-effective cloud solutions on Amazon Web Services platform with hands-on knowledge of core AWS services and architecture best practices.
- **IBM DevOps, Agile Design Thinking** — Earned 97% distinction in IBM DevOps Fundamentals, demonstrating expertise in Git version control, Jenkins CI/CD pipeline automation, and end-to-end project deployment workflows with hands-on implementation of enterprise-grade DevOps practices.
- **NPTEL Cloud Computing and Marketing Analytics** — Ranked in the top 10% among 23,000+ learners in cloud computing and 1,500 + in marketing analytics.
